"I have witnessed very rich culture in Azerbaijan. This is my first visit to Baku. Your city is very beautiful. People are very kind and hospitable," director of New Europe newspaper Alexandros Koronakis has told AzerTAc.

Stressing the perfect organization of the Crans Montana Forum, Koronakis noted Azerbaijan played important role for regional stability and security.

"This is my first participation in the Crans Montana Forum. The holding of such forums, high-level dialogs and conversations contribute to developing new partnerships."

"The discussion on youth leadership within the forum is very important. Young people share their opinions on how to integrate into the world. Such disputes, of course, are very important," added Koronakis.
