

MOST DYNAMIC PORT IN THE PACIFIC AREA

HONIARA PORT

The Label for Excellence of the Most Dynamic Port in the Pacific Area was awarded to the Honiara Port, Solomon Islands, represented by H.E Mr. Samuel Manetoali, Minister of Tourism and Culture of Solomon Islands on the occasion of an Official Ceremony in Geneva on October 17, 2014.

The Port Industry is a competitive and dynamic industry and ports like the Port of Honiara has to invest in port infrastructure and technology in order to remain competitive with neighboring ports in the South Pacific.

It is expected that a major extension of the principal wharf will be in operation in 2016, with the financial support of Japan. It will reduce the waiting time for ship berthing and allow larger vessels to be easily accommodated.

With such ambitious development of infrastructure projects, Honiara Port is about to become one of the most important ports in the region.
